At the Center of the Healthcare Continuum

The Forcura Care Coordination Platform combines workflow and collaboration tools, third-party engagement capabilities, and analytics to support healthcare providers across multiple care settings and services. It is powered by clinical data exchange and can be configured to support the unique needs of a healthcare provider as they change over time.
Forcura gives you the value you deserve.

Reduce Administrative Costs

Process more documentation with fewer staff
Manage 800 patients per admin

Enable cross-functional team collaboration on one user-friendly, integrated platform
Unlimited user accounts at no additional cost

Minimize risk by simplifying compliance and audit processes
Comprehensive audit trail of all documents with actions taken by user with date/time stamp

Eliminate hard costs like printing, paper, postage, and faxing
100% cloud-based platform

Optimize Revenue Cycle Management

Faster Patient Onboarding
Reduce onboarding time by 50%; with auto identifying referrals, you'll never lose a referral to your competitor

Capture more reimbursable conditions at the start of care
Care teams gain up to 2 more hours per patient to review documentation while creating care plans

Accelerate cash flows
- Reduce accounts receivable time by 60%
- Shorten average document-to-signed time to 8 days
- 96% of documents returned and signed in 30 days

Reduce Onboarding Time
50%

Reduce Accounts Receivable Time
60%

Improve Clinical Outcomes

Coordinate care between remote teams
24x7 HIPAA-secure communication

Extend and scale clinical expertise from the office to the field
One app supports both clinical and office staff

Deliver more patient-centered care
Monitor patient wounds and document patient progress from the point of care

Capture more patient conditions and comorbidities at the start of care
- Faster patient onboarding allows for faster care team transition
- Care teams have more time per patient to review documentation while creating care plans
